

# **ISP** Stitching & Bindery Products

## ***Bindery Mate II***

Featuring ISP's M-2000 Stitching Head

# BinderyMate II

ISP Stitching & Bindery Products

Dual unit shown with optional stand  
 \*stand height adjusts from 29" to 41"  
 \*stitch centers from 4 1/2" to 12"

The *BinderyMate II* from ISP Stitching & Bindery Products is the next generation in compact table-top wire stitchers. With new improved performance and office friendly appearance, the *BinderyMate II* is everything you could ask for in a wire stitcher.

ISP's *BinderyMate II* offers the proven economical benefits of continuous coil wire stitching versus pre-formed staples, and with the new M-2000 Stitching Head, the *BinderyMate II* features quiet, durable, jam resistant operation with low maintenance. Completely portable, the *BinderyMate II* mounts to most work tables or the adjustable ISP stand and switches from flat to saddle stitching and back again in seconds.

### The M-2000 Stitching Head Advantage!

- Increased productivity
- Reduced cost
- Full 1/4" capacity (60 sheets 20# bond)  
Flat or saddle stitching mode
- Simple work thickness adjustment
- Low maintenance

**The M-2000 stitching head performs  
 twenty times better than any previous design!**
